

CHRONIC CARE MANAGEMENT

Support for life's journey

Maintaining a Healthy Lifestyle on Top of all Your Appointments and Medications Can be a Huge Challenge.

Now there's help! Medicare's Chronic Care Management (CCM) Program will provide you with personal assistance in coordinating your care between office visits.

With the assistance of our friendly and knowledgeable Care Coordinators, you'll receive all the important information and encouragement you need to best manage your health.

ELITE PRIMARY CARE GROUP

— Your Trusted Care —

How Does Chronic Care Management (CCM) Work?

When you enroll in our CCM program, we will match you with your own Personalized Care Coordinator, **your one-on-one connection to the practice.** They'll work with you and your doctor to help develop a Personalized Care Plan, reach out by phone to regularly discuss your overall health, and answer questions you may have.

Do I Qualify?

Medicare patients who are living with two or more chronic conditions (such as diabetes, high blood pressure, or arthritis) qualify for CCM services.

We're Here for You

By enrolling in CCM, you'll receive:

- A regularly reviewed and updated Personalized Care Plan with your Care Coordinator
- Early identification of potential health problems
- Centralized health records from all of your doctors
- Help with medication management
- Resources and encouragement to help stay on track with your health goals
- 24/7 access to care plan
- Consolidation of your medical records
- Coordination with your complete care team (primary care, family, hospitals, and specialist)

The Perfect Price for Peace of Mind

These comprehensive services are available to you at little to no cost.

Our program is reimbursed through Medicare, and many secondary insurance providers cover a portion or the entire co-insurance.

To learn more and enroll, please contact us to talk with one of our enrollment specialists.

It's that easy!
